PROFILE

Digital marketing leader: 18 years in commercial roles, 11 of them leading digital. I run the whole channel mix and hold it to revenue: paid search and social, LinkedIn, SEO, email and lifecycle, conversion, and the tracking that proves what worked. For three years I was **fractional Head of Digital Marketing for Ensinger UK** (£20M+ manufacturer), reporting to the MD across three brands. Before that I managed **Microsoft's MSN and Skype ad portfolio for Africa and the Middle East ($1.5M a month)** and ran an agency team of 10 managing **$18,000 a month in Google and Meta ad spend**. I judge channels on contribution margin and store-measured revenue, not platform-reported numbers. I diagnose from data first, then build hands-on: campaigns, creative tests, tracking, CRM, automation and AI agents. I am winding down my consultancy to give one full-time remote leadership role my full attention.

KEY RESULTS

- **Cost per lead cut 77%** (£69 to £16) on LinkedIn for Ensinger UK, with 43 leads in 30 days.
- **Contact actions up 53%** for Ensinger UK through LinkedIn and Google Search; LinkedIn video **CTR from 1.09% to 2.0%** and cost per result from £2.50 to £1.30.
- **3.6x blended ROAS** in an owned brand's record month after rebuilding its Meta account, measured against store revenue rather than the 2.05x the platform reported.
- **550+ registrations and 300 attendees** for Outbound Investment Group's investor events in China, New York and South Africa.
- **Lead response for a travel franchise:** every lead answered in **under a minute** and quote preparation cut from an hour to **2 minutes**; 230 enquiries became 219 quotes (95%) and **$19,500 in bookings** in 30 days.

EXPERIENCE

FOUNDER-DIRECTOR

Apr 2020 - Present

JCE Media, Johannesburg | Digital marketing consultancy

When Covid hit, pivoted the agency into a consultancy for international clients in B2B SaaS, travel tech, manufacturing, proptech, services and eCommerce (UK, US, South Africa), with a core team of an operations lead and a sales partner, plus specialist contractors.

- Created the **Seven Figure Blueprint**, a productised three-week strategy engagement (diagnostic, ICPs, channel plan, money model, 90-day plan), and ran it for **25+ companies** including AeroCRS, WorldTicket, Ensinger UK and Club 720.
- Ran **paid media across Google, Meta and LinkedIn** for B2B and eCommerce clients, with structured creative testing and conversion tracking rebuilt in GA4 and Google Tag Manager; outbound for a travel-tech SaaS (AeroCRS) reached a **60% reply rate**, with 54% of replies booking a demo.
- Rescued an eCommerce client's **organic search after a site migration**: mapped and verified 590 redirects covering 65.6% of revenue-bearing URLs, rebuilt on-site search and fixed site speed.
- Designed **CRM, email and lifecycle** journeys in GoHighLevel, HubSpot, Pipedrive and Klaviyo: a six-location US salon group (22-email nurture), a travel franchise's WhatsApp bot and follow-up, and as fractional Head of Marketing Operations for Dynamic Language, a Pipedrive build that lifted **MQL to SQL conversion 35%**.
- Ran **data diagnostics**: a five-year cohort analysis (1,184 orders) showed new-customer 90-day repeat rate falling from 38.7% to 12.3%, a $6,800-a-year leak, and set the retention fixes.
- Built the business's own **marketing operating system**: reporting, content and ad production pipelines, and 25+ AI agent workflows (Claude Code, Make.com).
