Jacques Groenewald

HEAD OF REVENUE OPERATIONS

GTM Strategy, Pipeline and Revenue Systems | B2B SaaS and Services

Johannesburg, South Africa (SAST, UTC+2) | Remote | +27 79 512 4292 | jacquesgroenewald88@gmail.com |
linkedin.com/in/jacquesgroenewald | Portfolio and client videos: jcereports.netlify.app/jacques-groenewald/revops

PROFILE

Revenue operator who builds the system behind the number: the funnel, the CRM and lifecycle, the hand-offs and SLAs between marketing and sales, the reporting, and the operating cadence that keeps everyone honest. Since 2021 I have led **25+ growth and go-to-market blueprints** for SaaS, travel tech, manufacturing and services companies in the UK, US and South Africa, and two of them turned into **three-year fractional leadership roles**. Before that, six years in commercial roles, including managing **Microsoft's MSN and Skype advertising portfolio for Africa and the Middle East ($1.5M a month)** at Mediamark.

I diagnose from data first, then build hands-on: CRM architecture, automation, attribution, dashboards and AI agents. I am looking for one full-time remote leadership role; my agency's client work is winding down, so the role gets my full attention.

KEY RESULTS

- **Lead-to-quote system for a travel franchise:** quote preparation cut from about an hour to **2 minutes** and every lead answered in **under a minute**; 230 enquiries became 219 quotes in 30 days (95%) and 6 bookings worth R322,000, at about R32 per lead.
- **End-to-end RevOps review** of a hardware and software business across 1,676 contacts and 361 opportunities: priced its cost of poor quality at R73,900 a year (9.2% of revenue), set LTV:CAC at 2.7:1, and found an 11-week silent CRM email failure that was fixed the same day.
- **Cost per conversion cut 75%** (£69 to £16) on LinkedIn for a UK B2B services client, with 43 conversions in 30 days.
- **Outbound for a travel-tech SaaS (AeroCRS):** 60% reply rate, with 54% of replies booking a demo.
- **MQL to SQL conversion up 35%** as fractional Head of Marketing Operations for a translation company (Dynamic Language), after building their Pipedrive CRM and lead hand-off.

EXPERIENCE

FOUNDER-DIRECTOR, GROWTH AND REVENUE OPERATIONS

Jan 2015 - Present

JCE Media (Duel Digital (Pty) Ltd), Johannesburg | Growth and revenue systems consultancy, plus owned brands

Clients in B2B SaaS, travel tech, manufacturing, proptech, services, hospitality and eCommerce (UK, US, South Africa). Core team of an operations lead and a sales partner, plus contractors.

- Created the **Seven Figure Blueprint**, a productised three-week strategy engagement (three workshops: diagnostic, ICPs, revenue leak map, offer and pricing, channel plan, money model, 90-day plan), and ran it for **25+ companies** including AeroCRS, WorldTicket, Ensinger UK and Club 720. Priced at $3,000, with one pricing rule across markets.
- Added a **RevOps layer** to the method in 2026: maturity scorecard, flywheel force and friction, lead-to-revenue SLA maths, marketing and sales velocity, cost-of-poor-quality costing, A3 executive summary, DARCI change plan and a quarterly operating cadence.
- Designed **CRM and lifecycle architecture** in GoHighLevel: one account for a six-location US salon group with location segments, lifecycle stages from tour request to signed lease and a 22-email nurture; a WhatsApp bot, quote tool and stage-triggered follow-up for a travel franchise; review and booking automation for hospitality clients; white-label automation for a US agency's end clients.
- Implemented and ran **CRMs across Pipedrive, HubSpot and Zoho**: as fractional Head of Marketing Operations for Dynamic Language (translation, 200+ languages), built their Pipedrive CRM and lifted **MQL to SQL conversion 35%**; built HubSpot pipelines and reporting for Outbound Investment Group, whose LinkedIn outbound added **20 SQLs a week** at 20% conversion (+50% in two months); optimised Zoho CRM for Adept Cloud (UK).
- Built a **production paid-membership platform** for a four-venue pub group (Supabase, role-based access, append-only ledger, rotating redemption codes): R64,000 build plus a monthly fee per venue.
- Wrote the **SOPs and playbooks** that run sales and delivery: sales script, LinkedIn and ABM outreach system, cold email and follow-up SOPs, daily sales follow-up, client onboarding flow and monthly email campaign SOP.
- Ran **data diagnostics**: a five-year cohort analysis (1,184 orders) showed new-customer 90-day repeat rate falling from 38.7% to 12.3% and sized the leak at R113,000 a year; a Google Ads audit exposed fabricated conversion values and missing click attribution, then the tracking was rebuilt.
- Demand generation results for clients: **550+ registrations and 300 attendees** for investor events in China, New York and South Africa; **435 summit registrations** from 8,600 emails; **949 leads in 60 days at $4.78** for a client that raised $300K+.
- Built the business's own **operating system**: action board, waiting-on register with chase dates, contribution scoreboard against a monthly target, a scheduled morning brief and 25+ reusable AI agent workflows (Claude Code, Make.com). Separately, **$70K+ earned on Upwork** across 64 contracts since 2018.

REVIEWTAP *| Review-collection hardware and software (owned brand) | 2024 - Present*

- Built the go-to-market from zero: positioning, pricing and a volume ladder, Shopify store, paid acquisition, CRM follow-up and onboarding. **R930,000+ revenue in its first 18 months**.
- Rebuilt the Meta account into prospecting, retargeting and creative testing: **record month of R136,000 at 3.6x blended ROAS**, measured against store revenue rather than the 2.05x the platform reported.
- Mined order history and found 14+ franchise groups buying single units at retail; built a multi-site account programme and outbound that opened with each group's own order data (2 meetings and 1 yes from the first 9 contacts).

MYFOREVERBABY *| Consumer eCommerce (owned brand) | 2025 - Present*

- **R919,000 gross sales in the first 14 months**, peak month R172,000, owning P&L, contribution margin and stock planning.
- Ran a controlled ad audit against first-touch store data: simple ads cost R809 per purchase at 4.35x ROAS against R1,059 at 2.23x for automated variants, and reset the account on that finding.

FRACTIONAL HEAD OF DIGITAL MARKETING

Jun 2022 - Nov 2025

Ensinger UK (engineering plastics manufacturer), via JCE Media | Remote

- Started with a Seven Figure Blueprint in 2022 that converted into a three-year retainer; ran digital for three brands (Ensinger, Elekem, Insulbar), reporting to the Managing Director, and wrote the annual plan and report.
- Lifted contact actions **53%** (Contact Us clicks up 61%, enquiry forms up 20%) through LinkedIn and Google Search.
- Split-tested LinkedIn video ads: **CTR from 1.09% to 2.0%**, **cost per result from £2.50 to £1.30**.
- Built ABM outbound in Lemlist (1,240 invites, 5.5% reply rate; medical sector 13.5% acceptance and 6.9% reply) and grew LinkedIn followers 32% and engagement 58% in a year; set up GA4 and Tag Manager, then handed the function in-house in Nov 2025.

FRACTIONAL HEAD OF MARKETING

Jun 2022 - Mar 2025

Club 720 and Your Housing Resource (US homeownership platform), via JCE Media | Remote

- Began with a Seven Figure Blueprint, then led growth: paid search and social, email, webinars, partner outreach, a 2025 community strategy and an AI virtual coach in their app.
- Reached **1,717 active users and 69 home buyer applications** in a 30-day period, with paid search driving most new users.

PORTFOLIO MANAGER, MICROSOFT MSN AND SKYPE

Jan 2012 - Dec 2014

Mediamark (media sales house) | Africa and Middle East

- Managed Microsoft's MSN and Skype advertising portfolio for Africa and the Middle East, **worth $1.5M a month**, as commercial lead for advertisers and their agencies; built and presented annual plans with regional stakeholders.
- Sold and managed campaigns for Vodacom, Unilever, Standard Bank, Absa, Outsurance and First for Women through Omnicom and GroupM, including the **Vodacom Durban July (R5M+)**.
- Won the Hard Drive Award for top performer **five months in a row**.

SALES MANAGER

Jan 2009 - Dec 2011

Planet Fitness, Craighall and Rosebank, Johannesburg

- Led sales teams of up to 20 consultants across two clubs; introduced a structured sales process, forecasting and pipeline discipline.

SKILLS

REVENUE OPERATIONS:	RevOps maturity assessment, funnel and lifecycle stage design, lead-to-revenue SLAs, pipeline and forecast hygiene, sales and marketing velocity, unit economics (LTV:CAC, contribution margin), cost of poor quality, attribution and conversion tracking, CRM architecture and automation, sales process and playbooks, pricing and packaging, dashboards and operating cadence, change management.
CRM:	HubSpot, Pipedrive, Zoho CRM, GoHighLevel (API, workflows, white-label sub-accounts).
TOOLS:	Make.com, Shopify, Supabase, Google Analytics 4, Google Tag Manager, Search Console, Microsoft Clarity, Google Ads, Meta Ads, LinkedIn Ads, Lemlist, Klaviyo, WordPress and WooCommerce, Claude Code and AI agents, Python and Node for data work. Also: Salesforce (working knowledge), Zapier, n8n.

EDUCATION

BCom Management and Economics, Central University of Technology, Free State. Two modules outstanding; re-enrolling in 2027 to complete.

CERTIFICATIONS AND ASSESSMENTS

HubSpot certified: Revenue Operations (Nov 2026), Digital Marketing (Oct 2026). Meta Ads: 95th percentile, TestGorilla (Jun 2026). South African citizen, available immediately for remote work in UK, EU or US East Coast hours. References include my Mediamark line manager and Ensinger UK's Managing Director.
