Jacques Groenewald

HEAD OF REVENUE OPERATIONS

GTM Strategy, Pipeline and Revenue Systems | B2B SaaS and Services

Johannesburg, South Africa (SAST, UTC+2) | Remote | +27 79 512 4292 | jacquesgroenewald88@gmail.com | linkedin.com/in/jacquesgroenewald | Portfolio and client videos: **jcereports.netlify.app/jacques-groenewald/v11/revops**

PROFILE

Revenue operations leader: 18 years in commercial roles, 11 of them leading growth. I build the system behind the revenue number: funnel and lifecycle design, CRM architecture (HubSpot, Pipedrive, Salesforce data), SLAs, attribution, forecasting and operating cadence. Since 2020 I have advised the **CEOs and MDs of 25+ companies** in the UK, US and South Africa on go-to-market, turned two of those engagements into **multi-year fractional leadership roles**. Before that I managed **Microsoft's MSN and Skype ad portfolio for Africa and the Middle East ($1.5M a month)**, built a 10-person agency team, and hired and trained sales teams of up to 20 into a national top 5. I diagnose from data first, then build the fix myself. I am winding down my consultancy to give one full-time remote role my full attention.

KEY RESULTS

- **Sales qualified leads up 50% in two months** for Outbound Investment Group: HubSpot pipelines and reporting behind LinkedIn outbound that added **20 SQLs a week** and lifted **sales calls booked per week 70%**.
- **MQL to SQL conversion up 35%** as fractional Head of Marketing Operations for Dynamic Language (translation), after building their Pipedrive CRM and lead hand-off.
- **Lead-to-quote system for a travel franchise:** every lead answered in **under a minute** and quote preparation cut from about an hour to **2 minutes**; 230 enquiries became 219 quotes (95%) and **$19,500 in bookings** in 30 days.
- **Cost per lead cut 77%** (£69 to £16) on LinkedIn for Ensinger UK, with 43 leads in 30 days.
- **Outbound for a travel-tech SaaS (AeroCRS):** 60% reply rate, with 54% of replies booking a demo.

EXPERIENCE

FOUNDER-DIRECTOR

Apr 2020 - Present

JCE Media, Johannesburg | Growth and revenue systems consultancy

When Covid hit, pivoted the agency into a consultancy for international clients in B2B SaaS, travel tech, manufacturing, proptech, services and eCommerce (UK, US, South Africa), with a core team of an operations lead and a sales partner, plus specialist contractors.

- Created the **Seven Figure Blueprint**, a productised three-week strategy engagement (diagnostic, ICPs, revenue leak map, offer and pricing, channel plan, money model, 90-day plan), and ran it for **25+ companies** including AeroCRS, WorldTicket, Ensinger UK and Club 720.
- Added a **RevOps layer** to the method in 2026: maturity scoring, lead-to-revenue SLAs, sales velocity, cost-of-poor-quality costing and a quarterly operating cadence.
- Designed **CRM and lifecycle architecture** in GoHighLevel: a six-location US salon group (location segments, tour-to-lease stages, 22-email nurture), a travel franchise's WhatsApp bot and stage-triggered follow-up, and review and booking automation for hospitality clients.
- Implemented and ran **CRMs across Pipedrive, HubSpot and Zoho**: as fractional Head of Marketing Operations for Dynamic Language (translation, 200+ languages), built their Pipedrive CRM and lifted **MQL to SQL conversion 35%**; built the HubSpot pipelines and reporting behind Outbound Investment Group's outbound results (per HubSpot reporting); optimised Zoho CRM for Adept Cloud (UK); built Salesforce integrations and pulled Salesforce pipeline data into several blueprints.
- Built a **production paid-membership platform** for a four-venue pub group (Supabase, role-based access, append-only ledger).
- Ran **data diagnostics**: a five-year cohort analysis (1,184 orders) showed new-customer 90-day repeat rate falling from 38.7% to 12.3%, a $6,800-a-year leak, and set the retention fixes for the relaunch.
- Demand generation results for clients: **550+ registrations and 300 attendees** for investor events in China, New York and South Africa; **435 summit registrations** from 8,600 emails; **949 leads in 60 days at $4.78**.
- Built the business's own **operating system**: action board, waiting-on register, contribution scoreboard and 25+ AI agent workflows (Claude Code, Make.com).
- Wrote the **SOPs and playbooks** that run sales and delivery: sales script, ABM outreach, cold email and follow-up, client onboarding and email campaigns.

Client leadership roles, through JCE Media:

Fractional Head of Digital Marketing, Ensinger UK

Jun 2022 - Nov 2025

Client role, remote | Engineering plastics manufacturer, £20M+ annual sales

- Turned a 2022 Seven Figure Blueprint into a three-year role running digital for Ensinger, Elekem and Insulbar, reporting to the MD.
- Lifted contact actions **53%** (Contact Us clicks up 61%, enquiry forms up 20%) through LinkedIn and Google Search.
- Built ABM outbound in Lemlist (1,240 invites, 5.5% reply rate), set up GA4 and Tag Manager, and handed the function in-house in Nov 2025.

Fractional Head of Marketing, Club 720 and Your Housing Resource Jun 2022 - Mar 2025

Client role, remote | US homeownership platform

- Began with a Seven Figure Blueprint, then led growth across paid search and social, email, webinars and partner outreach.
- Reached **1,717 active users and 69 home buyer applications** in a 30-day period, with paid search driving most new users.

FOUNDER, OWNED ECOMMERCE BRANDS

ReviewTap and MyForeverBaby, Johannesburg | Run alongside the consultancy

Founder, ReviewTap Feb 2025 - Present

Review-collection hardware and software

- Built the go-to-market from zero: positioning, pricing and a volume ladder, Shopify store, paid acquisition, CRM follow-up and onboarding. **$56,000 revenue in its first 18 months**.
- Rebuilt the Meta account into prospecting, retargeting and creative testing: **record month of $8,200 at 3.6x blended ROAS**, measured against store revenue rather than the 2.05x the platform reported.
- Mined order history and found 14+ franchise groups buying single units at retail; built a multi-site account programme and outbound that opened with each group's own order data (2 meetings and 1 yes from the first 9 contacts).
- Ran an **end-to-end RevOps review** across 1,676 contacts and 361 opportunities: costed poor quality at $4,500 a year (9.2% of revenue), measured LTV:CAC at 2.7:1, and set lifecycle stages, SLAs and a weekly operating cadence.

Founder, MyForeverBaby Jul 2025 - Present

Consumer eCommerce

- **$55,600 gross sales in the first 14 months**, peak month $10,400, owning P&L, contribution margin and stock planning.
- Ran a controlled ad audit against first-touch store data: simple ads cost $49 per purchase at 4.35x ROAS against $64 at 2.23x for automated variants, and reset the account on that finding.

FOUNDER-DIRECTOR Jan 2015 - Mar 2020

Duel Digital, Johannesburg | Digital marketing agency (pivoted to consultancy as JCE Media in 2020)

Built and led an in-house agency team of 10 (four salespeople, a designer, a developer, a media buyer, a social media manager and an executive assistant), hired every role myself, designed the sales comp plans and set the team's SLAs. We ran marketing for 40+ SMB accounts, managed **$1M in Google and Meta ad spend** across them, built **400+ websites** and ran in-store activations and competitions.

PORTFOLIO MANAGER, MICROSOFT MSN AND SKYPE Jan 2012 - Dec 2014

Mediamark (media sales house) | Africa and Middle East

- Managed Microsoft's MSN and Skype advertising portfolio for Africa and the Middle East, **worth $1.5M a month**, as commercial lead for advertisers and their agencies; grew **net revenue retention from existing clients year on year** through annual account plans.
- Sold and managed campaigns for Vodacom, Unilever, Standard Bank, Absa, OUTsurance and 1st for Women through Omnicom and GroupM, including the **Vodacom Durban July ($300,000+)**.
- Ran cross-platform campaigns that extended beyond digital to radio (Gagasi FM, Jacaranda FM, East Coast Radio), and was part of the launch of **Adfu**, Mediamark's programmatic media platform.
- Won the Hard Drive Award for top performer **five months in a row**.

SALES MANAGER Jan 2009 - Dec 2011

Planet Fitness, Craighall and Rosebank, Johannesburg

- Hired, trained and led sales teams of up to 20 consultants across two clubs, with a structured sales process, territory planning, forecasting and pipeline discipline; both clubs hit their sales targets consistently and ranked among the **top 5 clubs in the country**.

SKILLS

REVENUE OPERATIONS:	RevOps maturity assessment, funnel and lifecycle stage design, lead-to-revenue SLAs, pipeline and forecast hygiene, sales and marketing velocity, unit economics (LTV:CAC, contribution margin), cost of poor quality, attribution and conversion tracking, CRM architecture and automation, sales process and playbooks, pricing and packaging, dashboards and operating cadence, change management.
